

Junior Creative Graphic & Digital Designer

Location: Letchworth, Hertfordshire
Salary: Competitive Packages
Hours: 37 hours per week, plus overtime
Contract: Permanent

Sonovision are a multi-award-winning agency who provide a full range of Technical Publications, Graphic Design, Marketing support and E-Learning solutions to multi-national companies world-wide. Our Creative Design Studio provides a broad range of print and digital design services along with 3D animation and immersive design making us a unique design agency.

We are seeking a Junior Creative Graphic and Digital Designer with 1-2 years' experience to support our expanding Studio. The successful applicant will; be a highly creative all-round designer looking to progress their career, with good skills in print, DTP and digital design. The successful candidate will work closely with the creative and digital design teams, bringing inspiring creativity to a variety of marketing, motion graphics, video content, interactive design and UI tasks. This is a great opportunity for an individual to grow and develop their skills and be part well-respected design studio.

Key Tasks and Responsibilities:

- An excellent understanding of digital and print design techniques
- Support the print design team in designing a variety of marketing collateral
- Support the digital design team in producing engaging video content, motion graphics and interactive media
- Support our 3D and Immersive team in producing UI content and assets
- A passion for digital trends
- Confident in Microsoft Office and DTP skills
- An ambition to grow and constantly improve yourself
- Be involved with design discussions providing your insight and ideas with the team
- Ensure projects are completed and delivered to agreed timescales, within budget and to the highest standards.

The right candidate will have the following skills and background:

- Proficient in the use of Adobe Creative Cloud; InDesign, Photoshop, Illustrator, Premiere Pro, After Effects, XD, Quark Xpress, CorelDraw
- Knowledge of HTML5, CSS, JavaScript, UI/UX and Cinema 4D would be an advantage
- Proficient in Microsoft Office.
- An interest in emerging technologies like AR/VR using Unity3D and Unreal would be an advantage
- Excellent creativity and ideas creation
- Excellent attention to detail
- Excellent communications skills – verbal and written.
- Ability to deliver artistically impactful work on time
- Ability to multi-task under pressure whilst maintaining a calm, professional attitude
- Ability to work flexibly as deadlines dictate
- High level organisation, prioritisation and time management skills
- Team oriented with ability to work autonomously

- Resourceful with aptitude for practical and innovative problem solving
- Open to providing and receiving feedback.

Please note, candidates must successfully undergo UK Security Vetting before they can be appointed. The level of security needed is Security Check (SC). To meet the National Security Vetting requirements for this role you will need to have resided in the UK for a minimum of 3 out of the past 5 years.

Screening:

Are you an all-round print and digital designer?

Are you proficient in industry standard software applications?

Do you have experience working in a Studio?

Do you have an interest in engineering and how products work?

Are you eligible to live and work in the UK, with a valid Passport?

If you are interested in joining our team, send your CV to:
