

Technical Author

Location: Cambridge
Salary: Attractive packages
Hours: 37 hours per week
Contract: Permanent

Sonovision provides a full range of Technical Publications to multi-national companies world-wide. We develop printed, electronic and online documentation, working to industry specific standards such as S1000D, ATA, JSP and DITA for the Defence, Energy and Aerospace sectors.

The role:

Technical Author - Your position will involve:

- Creating and amending technical documentation for world class manufactures
- Working closely with the Technical Illustrators
- Liaising with the customer engineering teams
- Liaising with the on-site support team to resolve technical queries

To be considered for this opportunity:

You will need the following:

- Minimum of 3 years' relevant experience (Aerospace, Defence, Rail, Energy, Nuclear)
- Experience in producing technical documentation using S1000D and Simplified Technical English
- Good understanding of engineering data in a variety of formats from engineering drawings to design reports
- Experience with Global 6000 aircraft highly desirable
- Experience using FrameMaker essential
- Ability to communicate technical information in a clear and concise manner
- Adequate competency using different software packages for planning/reporting purposes
- A pro-active thinker that can provide potential solutions
- Ability to track production of tasks from conception to completion
- Drive and enthusiasm to achieve customer quality criteria
- Ability to work to deadlines and adhere to schedules
- Ability to work with a minimum of supervision
- Current SC Clearance an advantage

Candidates must successfully undergo UK Security Vetting before they can be appointed. The level of security needed is Security Check (SC).

Please note: We are not offering sponsorship or a relocation package for this role. We always welcome international candidates to apply providing they are eligible to work and live in the UK.

Screening:

Are you a commercially aware Technical Author with a minimum of 3 years' experience ?

Have you experience in using S1000D and Simplified Technical English?

Do you have experience with FrameMaker ?

Have you an understanding of engineering data in a variety of formats, Drawings and Design Reports?

Are you eligible to live and work in the UK, with a valid Passport?
